

Resolution Proposal

HCFWI propose we ask NFWI to consider presenting the expert opinions regarding resolutions in a different format.

We propose that expert opinions are published in WI Life and on My WI before members vote on the Resolutions in May. This change would mean that all members would have access to the professional opinion and would be better informed prior to instructing their delegates how to vote at the annual meeting.

Could all WIs discuss this at their February meeting so delegates can vote for this proposal at the Spring Council meeting.

If this proposal is passed by our delegates at the HCFWI Spring Council Meeting then our Federation Chair will consult with other Federations prior to the Annual Federation Conference in November.
