

Always Look on the Bright Side of Life

What is the effect on the rest of the family of a life-changing diagnosis?

Join us as David and Alison Woolford share their experiences of waiting for a double lung transplant, and their life afterwards providing a mixture of serious and amusing anecdotes. Anyone who has seen Alison's positivity posts throughout lockdown knows they will provide an honest perspective to this life-changing experience. David has previously spoken to Hampshire WI members with his talk 'The Air that I Breathe', if you enjoyed that you will certainly enjoy hearing more of their entertaining and thought provoking experiences.

This talk is part of HCFWI supporting WI national resolution Time to Talk about Organ Donation.
